

CRESCENT INDUSTRIES New Freedom, PA

Lamb provided Planning, Design and Construction Services for the renovation of a 18,000 s.f. injection mold fabrication facility for this plastic parts manufacturer.

Creative planning was required to allow the flow of materials, equipment and personnel through this multi-level vintage building.

Upgrades included:

- Improved CNC mill shop layout and equipment access door with exterior ramp.
- Conversion of storage area to a production shop area.
- New centralized stairwell for better personnel flow.
- New material lift between floors.
- New employee break room.
- Improved office and shop finishes.
- Outside drainage control.
